Brief description of the problem

Ennogen Pharma Limited has informed us that the Patient Information Leaflets (PILs) within the packs for the above batches contain an error in Section 3 (How To Take Trimogal Tablets) with regard to the dosage instructions for children under 6 years.

Section 3 (How To Take Trimogal Tablets)

Incorrect information in the PILs of the affected batches	Correct information that should be in the PILs
Children aged 6 months to 6 years* 500mg twice a day (see * below) *For children a lower strength tablet or a syrup may be more suitable, especially for smaller children.	Children under 6 years This tablet form of Trimogal is not recommended for use in children under 6 years.

Advice for healthcare professionals

When dispensing this medicine from the affected batches listed above, please ensure that the correct PIL is issued.

The correct PILs are available from the electronic medicines compendium (EMC) website by clicking on the links below:
