

15 October 2020

Medicine Supply Alert Notice

Lithium carbonate (Priadel®) 200mg and 400mg modified release tablets

Priority: Level 3* - update to MSAN (2020)88

Valid until: further notice

Issue

1. Essential Pharma has informed the Department of Health and Social Care (DHSC) of its decision to reverse the discontinuation of Priadel® 200mg and 400mg tablets from the UK market with immediate effect, whilst facilitating pricing discussions. As such the discontinuation notice issued to DHSC earlier this year has been withdrawn.

Advice and Actions

2. In light of this, clinicians across all healthcare settings are advised that there is no longer a need to implement system wide switching of patients from Priadel® tablets to an alternative lithium carbonate preparation until further notice.
3. Essential Pharma has confirmed supplies of Priadel® 200mg and 400mg tablets are sufficient to meet current UK demand and is working to ensure further stocks are available to maintain supply after April 2021.
4. All Patients who require lithium treatment should now continue to be managed in line with usual clinical practice underpinned by the relevant guidance.
5. Although DHSC cannot confirm a discontinuation will not take place in future, it is important to note that under the Health Service Products (Provision and Disclosure of Information) Regulations 2018, marketing authorisation holders must provide the DHSC a minimum of six months' notice of an intention to discontinue a product from the UK market.

Additional Information

Ordering of Priadel tablets

6. Whilst Priadel® 200mg and 400mg tablets do remain available, Essential Pharma are aware that ordering quotas have been exceeded earlier than expected, resulting in limited supplies available across the UK. Ordering quotas will remain in place across wholesalers (based on historic demand) for the foreseeable future to ensure supplies continue to be available for all patients. Please note, quotas are reset on the 1st of each month.
7. For those with insufficient supplies of Priadel® tablets who require stock urgently and cannot wait until the 1st of each month, please contact Movianto directly (tel: 01234 248 500 / e-mail: orders.UK@movianto.com). Please note, you will be required to create a Movianto account to obtain supplies.

Export of lithium carbonate products

8. Lithium carbonate has been added to the parallel export restriction list (8th September 2020) to ensure supplies remain available for the UK.
